Skills Summary

WebDev | + solid knowledge of HTML, CSS and JavaScript
+ CSS flexbox and grid
+ responsive design principles
+ experience with Materialize, Bootstrap and Wordpress
+ Git version control system used daily

Personal | + keen to learn and develop new and existing skills
+ approachable collaborator with friendly personality
+ creative problem solver with attention to detail

Most Recent Project

Mixer | + JavaScript app which recommends cocktails based on available spirits
+ this project taught me how to traverse and manipulate DOM elements. It also required me to use higher order functions, introducing me to their benefits.
